

# ASK OUR VETERINARIANS

**Dear Pet Lovers,**

This week I have a question for you! How many of you run into problems when it's time to take your cat to the vet? Does he hide when he sees the carrier and growl at you when you put him into it? If so, try keeping the carrier out all the time and encourage your cat to snuggle into it by his own choice to nap, eat a meal, or have some catnip. This is a concern we hear often. Because of that, it is one of the many reasons we opened Patton's Cat Hospital, our new Feline Friendly cats-only addition. And yes, we're excited for all of you to see it, so we're hosting a special Open House event on Saturday, April 11 from 2-5 pm. We'll be able to answer any questions that you have about cat care and dog care, and give you the chance to have a behind the scenes tour of our hospital and the new cat wing. We look forward to seeing you, and to meeting all of our readers!

**Warmly,  
Dr Doug**
